

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

GEOLOGICAL REPORTS.

Of the twenty-five copies of the first Annual Report of 1890 on hand November 15, 1896, thirteen have been sold, leaving twelve copies remaining on hand. At the close of the last fiscal year there were also on hand fifty-nine copies of volume VII, Part I, none of which have been disposed of.

On November 15, 1896, there were in the hands of the Secretary of State three hundred and seventy-nine copies of volume VII, Geological Survey of Ohio. Of this number but eight copies were sold, which leaves three hundred and seventy-one still in my possession.

DOMESTIC CORPORATIONS.

The popularity of our laws providing for the formation of corporations has been thoroughly attested during the many years they have been in operation, by the thousands of organizations formed thereunder. As a whole our laws are wise, prudent and reasonable. There are, however, some amendments which should be made by the legislature, of which I may mention the surrender of charter rights by corporations, which have no debts or obligations, to the secretary of state.

There are now three methods provided by law for the dissolution of corporations, one of which (sec. 5651) provides that a petition shall be filed with the court of common pleas setting forth in detail a complete inventory of all the estate, both real and personal, with all incumbrances thereon, also an account of the capital stock, with the names of stockhol-

ders, etc., together with the reason for desiring such dissolution. After this has been filed, the court by order must require all persons interested to show cause why the dissolution should not be made, and allow them three months in which to answer, a notice of which order must be published for three weeks. The method provided by sec. 5673 is very similar to that in sec. 5651. Sec. 5674 provides that a corporation, of which no installment of capital stock had been paid, and no debts incurred which are unpaid, may be dissolved by the vote of the majority in amount of the stockholders present at a meeting called for that purpose, but there is no requirement in law as to making a record of the same, except, in the case first mentioned, being the record made by the court. As this department has numerous inquiries concerning the surrender of corporate charters, and as no record of such dissolution is required to be made in this office, I suggest that the law be amended so as to require a certificate of such dissolution, or abandonment, to be filed with the secretary of state, when a marginal entry can be made on the page of the record of the corporation and in the column for "remarks" in the index. The secretary of state should be authorized to receive the surrender of a corporation desiring to surrender under the provisions of sec. 5674. He should also be authorized to receive the surrender of charters of all corporations which have voluntarily ceased to do business and have abandoned their rights under the charter, upon filing with him a sworn statement that there are no debts or obligations outstanding against the corporation, and containing such other information as prescribed by sec. 5652. In the case of corporations "not for profit," and having no capital stock, a method for the surrender of their charters to the secretary of state should be provided for in an easy and inexpensive manner. Many of this latter class of corporations do attempt to surrender by returning the certified copy of their articles furnished them by this department at the time of incorporation, and it is the practice of the department to make a memorandum of the surrender on the records, although the law does not require it. For these reasons, and many others apparent to those interested, which it is not necessary here to mention, I suggest that the corporation laws of the state be amended in these particulars.

FRATERNAL BENEFICIAL SOCIETIES.

At the last session of the General Assembly an act was passed regulating the incorporation of what are known as "fraternal beneficial societies," which requires such associations to file their articles of incorporation with the recorder of the county in which the home office of the corporation is located. In my judgment the articles of association of such corporations should be filed with the secretary of state, where the records of all other corporations are kept, as a matter of convenience to the people of the state. It is now the custom for all inquiries relating to corporations to be sent to this department and in time, when these

societies have become numerous, the fact that there is no record of them in this department will lead to much confusion and annoyance both to the department and parties making inquiry concerning them.

CODE OF RULES FOR COUNTY SURVEYORS.

Fifteen years have elapsed since the publication of the "Code of Rules or Instructions for the Government of County Surveyors," as required by sec. 181 of the Rev. Stat., and it is very probable that they should be revised so as to include such amendments as have been made to the statutes of the state since that time. The section above quoted imposes this duty on the secretary of state. As it requires a technical knowledge of civil engineering on the part of the person having in charge such important work, I suggest that, if the legislature deem it necessary or expedient to revise and republish this pamphlet, it empower the secretary of state to employ a competent person or persons, and that an appropriation, sufficient to meet the expense incident to such review and revision be made for that purpose.

HOWE'S HISTORICAL COLLECTIONS OF OHIO.

The General Assembly made provision at its last session for the publication of six thousand sets of "Howe's Historical Collections of Ohio," the plates and copyright of which it had previously purchased at a cost of \$20,000. The contract being let by the Supervisor of Public Printing as directed in the resolution, the work was printed and delivered to my predecessor, Hon. S. M. Taylor, then secretary of state. On assuming office, I found many hundreds of sets of this work stored in the book-room, and in order to spread the information that they were for sale, I sent out circular letters to the newspapers of the state requesting them to state for the information of the public that the volumes could be had by applying to the secretary of state, upon the payment of the price fixed by the legislature, viz., \$2 per set. As a direct result of this advertising the sales were greatly stimulated and up to this time there have been sold since the beginning of my term on the 13th day of last January, 1527½ sets, the receipts for which amount to \$3055. A great demand was made upon me for sets to supply the public schools throughout the state, as well as public libraries, but, as no provision was made in the resolution authorizing the distribution, I was compelled to refuse all such requests. As the state now owns this work, which is of much value, I suggest, that, should another edition be ordered by the legislature, provision be made for supplying all unsupplied schools and libraries, and in order to compensate the newspapers for their generous assistance in enabling me to dispose of the last edition that they each be furnished with a set gratis.

FOREIGN CORPORATIONS.

Elsewhere in this report will be found a list of all the foreign corporations who have complied with the acts relating to such corporations doing business in this state. Since the passage of the acts of April 25,

1893, and May, 16, 1894, many of the corporations of other states have filed the statements required by the provisions of these acts in this department, which has brought to the treasury thousands of dollars of revenue. It was the opinion of my predecessor that all corporations created under the laws of other states and doing business in Ohio were required to file the statement provided for in the act of April 25, 1893, whether their business was done through offices within the state or by travelling salesmen. This has been modified by the decision of the Supreme Court in the case of *The Toledo Commercial Company v. The Glen Manufacturing Company*, which was brought up from the Circuit Court of Lucas County, on error. The court held that this act does not apply to a foreign corporation whose business within the state consists merely of selling through traveling agents or correspondence, and delivering goods manufactured outside of the state.

INDEXES.

There are now about fifty thousand corporations recorded in this department, occupying four huge indexes, which have been filled during the years they have been multiplying, and as they are unclassified it is almost impossible to find a corporation unless the inquirer has the exact name of the company. This frequently occasions the waste of much time in hunting for information, which no less frequently results in the failure to find the company, if it be incorporated. With a view to having these records in shape for ready and convenient reference I recommend that the legislature appropriate a sufficient sum for compiling and arranging a new index, such as is now in use in the departments of the federal government and in other states. The necessity for this is manifest every day in this department, and I trust the legislature will consider this proposition favorably.

PURPOSES OF CORPORATIONS.

A very important matter in the construction of the corporation laws of this state, and one which the Secretary of State has had to pass upon many times recently, is that of the right of a corporation to combine two separate and distinct purposes in the object as set forth in its application. This applies more particularly to that class of corporations known as "electrical" companies, which desire to incorporate so as to operate an electric light plant and street railway. Applications containing such purposes have been refused on the ground that this is a double purpose, which the special statutes governing the creation of such corporations do not authorize. The argument which I have advanced against the incorporation of companies of this character is as follows :

Corporations created under sec. 3235 of the general statutes, may be organized for any purpose for which individuals may lawfully associate, but they can be formed for a single purpose only ; not for a number of diverse and unrelated purposes. The word " purpose," as used in the statutes, implies a limitation. Individuals may associate for any number

of lawful purposes, but a corporation can only be formed for a "purpose for which individuals may lawfully associate." This construction is supported by the opinion of the Supreme Court in the case of *State v. Taylor*, decided June 23, 1896, in which the court say: "It will be noted that the word is 'purpose,' not 'purposes.' Its use implies a limitation. This limitation must have been by design. It is a most wise and reasonable one. We cannot assume that the General Assembly would intentionally clothe corporations with the capacity to unite all classes of business under one organization, as this would tend strongly to monopoly. * * * Under subsequent chapters of the same title there are provisions for the incorporation of no less than fifteen different kinds of corporations. * * * These enactments taken together, we think, support the conclusion that a corporation may, except where distinct provision is made, be organized for one main purpose, not for a half dozen." Sec. 3269 of the Revised Statutes limits the application of sec. 3235 to corporations whose powers are not defined by special statutes in subsequent chapters of that title, and where the powers have thus been defined, as in case of banks, building and loan associations, street railways, gas, electric light and power companies, railroads, etc., their powers and capacities are derived from the special provisions and not from sec. 3235. That corporations whose powers are thus specifically enumerated are taken out from under the operations of the general statute is affirmed by the Supreme Court in *State v. Stock Co.*, 38 O. S. 347, in which it was held that sec. 3235 did not apply to the incorporation of insurance companies, as the organization of such companies, is specially provided for in chapters X and XI of the same title. In light of the decision of the Supreme Court, above referred to, I apprehend the law to be that under sec. 3235 corporations may be formed for any purpose for which individuals may lawfully associate, except for carrying on professional business, unless the purpose is such as is provided for by special statute; that when the organization is provided for by special statute the corporation may exercise only such powers as are enumerated, and such subsidiary powers as are necessary to the effectuation of the powers expressly granted; that where specific powers are conferred by law upon a certain class of corporations that corporations of another class are excluded from the exercise of the same powers. Therefore no single corporation may be created combining the several powers. Were it otherwise a corporation created for the purpose of doing a banking business might, in addition to receiving deposits and loaning money, provide also for transacting the business of fire and life insurance, or *vice versa*, and so on, *ad infinitum*.

There does not appear to be any good reason why electric street railway companies should not be permitted to maintain and operate electric light plants for the purpose of selling electricity for light, heat and

power purposes, and for this reason I would suggest that the law be amended so as to permit the same, as the double purpose is often necessary to the profitable operation of the business.

SAVINGS AND LOAN ASSOCIATIONS.

Section 3797 of the Revised Statutes fixes the minimum capital of savings and loan associations, places the value of the shares at one hundred dollars each, and prohibits such corporations from transacting business until one-half of each subscription has been paid, but unlike the provisions in sec. 3244 of the general corporation laws, it does not require any record of the amount subscribed or paid in to be made in this office, consequently the public dealing with such corporations have no knowledge as to whether or not it has complied with the law in this important particular. Such corporations should be carefully scrutinized and required to comply with every condition of the law imposed upon them, and to this end I suggest that the legislature enact that when the subscriptions have been made, and before such associations shall proceed to do business, they shall file in the office of the Secretary of State a certificate setting forth the amount of capital subscribed and paid in, in the same manner that corporations created under the general laws are required to do under sec. 3244.

PLATFORMS OF POLITICAL ORGANIZATIONS OF OHIO ADOPTED DURING THE YEAR 1897.

REPUBLICAN PLATFORM.

(Adopted at Toledo, O., June 23, 1897.)

The Republicans of Ohio rejoice in the magnificent victory of last year, whereby the people of the United States overwhelmingly decided in favor of "an honest dollar and a chance to earn it," and elected as President that splendid son of Ohio, William McKinley.

The platform upon which that victory was won declares the true principles and policy of the Republican party. To all the declarations of that platform we pledge anew our allegiance, and unqualifiedly commend the President and Congress for their wise and statesmanlike execution of its pledges.

The Republican party has always been the friend of the down-trodden and oppressed, and has always deeply sympathized with the struggle of any people for independence. We extend our sympathy to the patriots of Cuba in their efforts to achieve freedom from Spanish cruelty and oppression, and hope that the day of their deliverance is near at hand. We commend the course of the President, and express our confidence in his speedy and patriotic disposition of the Cuban question, in accordance with wise statesmanship and a firm and vigorous foreign policy.

We believe that the administration in negotiating the treaty for the annexation of Hawaii has acted wisely, and we express the hope that the Senate will ratify the same.

We denounce the violation of the spirit of the Civil Service act by President Cleveland in those orders which extended its operation beyond its purpose and intent, and demand such revocation of orders or modification of the law as will accomplish its manifest purpose.

We commend the reforms inaugurated in the pension bureau under the present administration and regard them an earnest of the sincerity of our pledges to the veterans of the republic, which we here renew, of a watchful care and recognition, and enforcement of their just claims upon a grateful people.

We favor the passage by Congress of such a law as will provide a national board of arbitration to secure, so far as possible, the adjustment and settlement of such differences as may arise between corporations engaged in interstate commerce and their employees.

Faithfully wedded to the principle of protection, we demand for the wool-growers of Ohio such ample protection for wool as shall speedily increase American flocks sufficiently to supply all American needs.

We endorse the wise, faithful and satisfactory administration of Governor Bushnell, and congratulate the people of this state upon the financial condition of their commonwealth, which demonstrates that the legislative power of the state was economically and honestly exercised by a Republican legislature. We promise a continuance of biennial sessions; such legislation as may be necessary to remedy the present inequalities of taxation; the making of only such appropriations as may be properly required for the needs of our rapidly growing state; and the avoidance of unnecessary special legislation, believing that the Republican idea of home rule is best subserved by leaving the broadest possible power of local government with the people. The success of the Republican party will insure the advantages of better schools, better roads, and all those progressive ideas which will keep Ohio at the head of the sisterhood States.

The thanks of the people of this State are due to Senators Foraker and Hanna for their splendid efforts during the present session of Congress, and we congratulate the people on their representation in the United States Senate.

Desiring to continue such representation, and appreciating his services to the party and to the people of the state and nation, and his eminent and proven fitness for the position, we endorse the candidacy of the Honorable Marcus A. Hanna for United States Senator, to succeed himself, and pledge the support of the party in the next General Assembly to his election to both the short and the long terms.

DEMOCRATIC PLATFORM.

(Adopted at Columbus, O., June 30th, 1897.)

The Democrats of Ohio, in convention assembled, reaffirm and endorse the declaration of principles contained in the platform adopted by the Democratic party in national convention at Chicago in 1896, which platform declares the money question paramount to all others at this time, and is as follows:

We invite attention to the fact that the constitution names silver and gold together as the money metals of the United States, and that the first coinage law passed by congress under the constitution made the silver dollar the money unit. and admitted gold to free coinage at a ratio based upon the silver dollar unit. We declare that the act of 1873 demonetizing silver without the knowledge or approval of the American people has resulted in the appreciation of gold and a corresponding fall in the prices of commodities produced by the people, a heavy increase in

the burden of taxation, and of all debts, public and private, the enrichment of the money-lending classes at home and abroad, the prostration of industry and impoverishment of the people.

We are unalterably opposed to monometallism, which has locked fast the prosperity of an industrial people in the paralysis of hard times. Gold monometallism is a British policy, and its adoption has brought other nations into financial servitude to London. It is not only un-American but anti-American, and it can be fastened on the United States only by the stifling of that spirit and love of liberty which proclaimed our political independence in 1776 and won it in the war of the Revolution.

We demand the free and unlimited coinage of both silver and gold at the present ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender, equally with gold, for all debts, public and private, and we favor such legislation as will prevent for the future the demonetization of any kind of legal tender money by private contract.

We are opposed to the policy and practice of surrendering to the holders of the obligations of the United States the option reserved by law to the government of redeeming such obligations in either silver coin or gold coin. We are opposed to the issuing of interest-bearing bonds of the United States in time of peace, and condemn the trafficking with banking syndicates which, in exchange for bonds, and at an enormous profit to themselves, supply the federal treasury with gold, to maintain the policy of gold monometallism.

Congress alone has the power to coin and issue money, and President Jackson declared that this power could not be delegated to corporations or individuals. We, therefore, denounce the issuance of notes intended to circulate as money by national banks as in derogation of the constitution, and we demand that all paper which is made a legal tender for public and private debts, or which is receivable for duties to the United States, shall be issued by the government of the United States, and shall be redeemable in coin.

We hereby declare all trusts and monopolies hostile and dangerous to the people's interests and a standing menace to the perpetuity of our free institutions and we demand a more rigorous enforcement of all anti-trust laws and such additional legislation as may be necessary for their immediate and final suppression.

Resolved. That we demand the immediate recognition of the belligerent-rights of the republic of Cuba, as an act of justice to an American nation struggling for liberty against foreign oppressors, and we denounce and protest against the action of Senator Hanna in voting to nullify the memorial presented to congress unanimously by the legislature of Ohio in favor of Cuban patriots.

In support of these principles we invite the co-operation of all men who love liberty and hate corruption, oppression and tyranny.

PROHIBITION PLATFORM.

(Adopted at Columbus, O., April 7, 1897.)

The Prohibition party of Ohio in convention assembled, acknowledges Almighty God as the rightful sovereign of all men, the supreme source of all just government and to whose laws all human enactments should conform as an absolute condition of peace, prosperity and happiness among men. In accordance with this declaration we hereby appeal to the intelligence, virtue and loyalty of the people of this commonwealth to join us in an effort to honor the Supreme Ruler of men and to conserve the best interests of the people of our state; and to this end we hereby submit to their thoughtful consideration the following declaration of our principles:

Whereas, The liquor drink traffic in the state and nation debases and debauches the intelligence and morals of the citizens; wages increasing warfare upon every high and holy interest designed to be fostered by the school, the church and the home; continually antagonizes private thrift as well as public order and prosperity by wasting the products of toil; and whereas, there are no compensating benefits connected with the traffic, but its influence and effect are evil, only evil, and that continually; abundantly reliable statistics showing that by resulting drunkenness, insanity, crime and pauperism it lays unjust burdens of taxation upon the sober citizen as well as jeopardizes his personal and property interests; and whereas, the saloons where drink is sold are very generally resorts for gambling, lewdness, debauchery and political corruption, where anarchism and crime burrow and breed; and whereas, every system of toleration of this evil whether called license, taxation, local option or public control, is both vicious in principal and powerless as a remedy; therefore, be it resolved,

First—That we favor the entire suppression through legal enactments, duly enforced in state and nation, of the manufacture, importation, exportation and sale of alcoholic liquors for beverage purposes.

Second—We arraign the Republican and Democratic parties for their present attitude in favor of this licensed iniquity by maintaining the present Dow tax, thus putting the state in complicity with the traffic, intrenching the iniquity behind the cupidity of the taxpayer and nullifying the express provision of the constitution forbidding the licensing of the traffic in the state.

Third—The money expenditures for intoxicants in our state and nation is so enormous, the moral and political influence wielded by the saloon power is so pernicious in its nature and baleful in its effects, that we affirm the suppression of the drink traffic to be the supreme question demanding political settlement by the people.

Fourth—That we declare that labor and all legitimate industries demand deliverance from the taxation and loss this traffic imposes, and no tariff or other legislation can so bountifully stimulate production or increase the demand for capital and labor or insure so much of comfort and contentment to the laborer, mechanic and capitalist as would the suppression of this traffic.

Fifth—We declare that no citizen should be denied the right of full suffrage on account of sex.

Sixth—In view of the foregoing facts and declarations we invite all voters, without regard to former party affiliations and however differing from us in other respects, who recognize the terrible evils inflicted on our people by the traffic in intoxicating drink, to unite with us in the use of the ballot for the utter suppression of the drink traffic, now existing under the authority of our national and state governments and to secure unity, peace and the protection of the persons and property of our citizens.

PEOPLE'S PARTY PLATFORM.

(Adopted at Columbus, O., August 11, 1897.)

We assert our political purposes to be identical with those of the national constitution, to form a more perfect union and establish justice, and in promoting the general welfare and secure the blessings of liberty for ourselves and our posterity.

We declare that this republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; and that it cannot be pinned together with bayonets while injustice rules the land.

It is the duty of the whole people acting through national, state and municipal administrations to see that opportunities for employment are open to all who are in enforced idleness by reason of closing of shops, factories and mines, and because of the improvement in labor-saving machinery.

It is the crime of the nineteenth century that three millions of our fellow-citizens are in involuntary idleness, thus causing an irretrievable loss of millions of dollars daily, hence we demand that whenever any state, territory, township, municipality or incorporated town or village deem it necessary to make public improvements they shall be permitted to deposit with the secretary of the treasury of the United States a non-interest bearing bond, not to exceed one-tenth the assessed valuation of the property of the state, territory, county, township, municipality or incorporated village, and said bond to be retired at the rate of four per cent. per annum.

Corporations are creatures of statutes and have no vested rights which may not be altered or abolished by the law-making power.

When corporations combine to control prices or restrict production, the state is in duty bound to annul their charters; if foreign corporations, to deprive them of their privileges of doing business in the state.

We reaffirm our adherence to the principles of the People's party as enunciated in the Omaha and St. Louis platforms, viz.:

Public ownership of railways, telegraphs, postal banks, government by law and not by injunction. The issuance of money to be by the federal government exclusively. Silver to be coined into money on an equality with gold and at the legal ratio of 16 to 1, supplemented with treasury notes, and all money to bear the stamp of the government to be full legal tender.

It is high time that the Ohio senatorship be taken out of the market, out of the hands of the political auctioneers, who have heretofore been wont to knock it down to the highest bidder. No millionaire plutocrat nor his henchmen, no owner of public franchise can be a fit representative of the interests of the plain people of the state of Ohio in the United States senate.

We denounce the Republican party for passing the fifty-year franchise bill, and we likewise denounce the Democratic party for not having the courage to brand it as an infamous robbery and pledging its repeal.

We demand home rule for counties, cities and municipalities in all things, without the interference of the legislature.

We demand the repeal of the Dana law, which denies the citizens of Ohio the right to nominate whom they will, and have their nominees printed upon the official ballot. And we further demand that the several political parties be represented in legislative bodies in proportion to the number of votes each party shall cast.

We demand a reduction of all official salaries to conform to reduction in wages of the wealth-creators and the price of farm products.

In order that the people may be enabled to regain control of their state, county, and municipal affairs, we demand that the constitution of the state of Ohio be so amended that when 10 per centum of the qualified electors of either of these subdivisions shall have initiated a movement for an act or proposition, it shall be mandatory on the secretary of state to refer the act or proposition to the people affected for their acceptance or rejection at the next general election; whenever any such public act or proposition shall be approved by a majority of the electors voting upon the same it shall become valid and operative from and after the official canvass of such vote.

We extend our sympathy to the striking and starving miners, their wives and children and deplore the social system making such conditions possible. We hereby pledge them our moral support as a party.

We heartily endorse the actions of the Nashville conference.

We extend our sympathy to the struggling patriots of Cuba in their efforts to cast off the yoke of slavery placed upon their necks by the Spanish government, and we hope and trust that they may succeed in their contest for liberty; that we denounce the present and past administrations of the United States for failing to recognize the belligerency of the Cuban patriots.

We demand a service pension to all soldiers of \$8 per month and 1 cent per day for each day of active service.

NATIONAL DEMOCRATIC PLATFORM.

(Adopted at Columbus, O., Sept. 9, 1897.)

We, the representatives of the National Democratic party of Ohio, in State convention assembled, reaffirm allegiance to the principles of the party as set forth in the platform adopted at Indianapolis in 1896. Criticism and attack of that platform have vindicated its strength and wisdom.

We declare for the maintenance of the gold standard, for the retirement of the greenback, and for the extension of the civil service merit system, wherever possible in the nation and in this State.

We demand retrenchment of expense and scope of government so that there be left the utmost freedom of individual effort consistent with safety and peace.

We denounce the recent tariff legislation as encouragement of extravagance and infringement of private right, an unfair tax on all for the benefit of some of the people, and an arbitrary interference by legislation with the natural laws of trade.

We denounce in the Dingley bill the heavier duties on lumber, wool and hides as increasing the cost of clothing and shelter to the people.

We condemn the proposed annexation of the Hawaiian Islands as introducing into our union a large Asiatic and tropical population utterly unfitted for American citizenship; as the beginning of a policy of territorial expansion certain to entail upon our country large taxation to sustain strong armies and navies in distant lands and on distant seas; and as constituting a menace to peaceful industry by exposing our country to foreign wars.

We disapprove the hostile action of the Republican party of Ohio in its attack on civil service reform and we express our thanks to President McKinley for his support and extension of the merit system.

SOCIALIST LABOR PLATFORM.

(Adopted at Canton, O., May 30, 1897.)

The Socialist Labor Party of the United States, in Convention assembled, re-asserts the inalienable rights of all men to life, liberty and the pursuit of happiness.

With the founders of the American republic we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be exercised under a system of economic inequality essentially destructive of life, of liberty and of happiness.

With the founders of this republic we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics, can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment, and, by compulsory idleness in wage-slavery, is even deprived of the necessities of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are perpetuated, that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system, the Socialist Labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of economic servitude and political dependence.

The time is fast coming when, in the natural source of social evolution, this system, through the destructive action of its failures and crises on the one hand and the constructive tendencies of its trusts and other capitalistic combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wageworkers of the United States, and upon all other honest citizens, to organize under the banner of the

Socialist Labor party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers; so that, held together by an indomitable solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarious struggle by the abolition of classes, the restoration of the land and of all the means of production, transportation and distribution to the people as a collective body, and the substitution of the co-operative commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

NEGRO PROTECTIVE PARTY PLATFORM.

(Adopted at Columbus, Sept. 22, 1897.)

The time having arrived when the best interests of the Negro race call for independent action upon his part, this convention presents the ticket nominated on the anniversary of the issuing of the proclamation of emancipation of Abraham Lincoln, and we hereby present the following declaration of principles, and we call upon every Negro to support our cause, and to vote our ticket. And we invite the careful and conscientious consideration of our grievances and rights by the honest and patriotic citizens of all parties.

Resolved, by the Negroes of Ohio in convention assembled. That we demand an immediate recognition of our rights as citizens such as have been repeatedly pledged and as often violated, and which are guaranteed by the constitution and laws of the land. A decent regard for our own feelings, of those we love and cherish, compels us to take immediate political action that we may show to the world that we are no longer the plaything of politicians or chattels for sale to the highest bidder.

Whereas, The Negroes of the United States are deprived of the enjoyment of their constitutional and legal rights, the gates of industry being closed against us, the right of public travel and equal accommodation being restricted in many localities, mob law, having supplanted the law of the land in many states, not excepting the state of Ohio, our cries for justice being disregarded by those in power, and having appealed in vain to both of the dominant political parties for redress of grievances; therefore,

Resolved, That the time has come for independent action on the part of the Negro citizens of Ohio.

Resolved, That this party shall be known as the Negro Protective Party.

Resolved, That a ticket shall be nominated to be known as the Negro Protective state ticket.

Resolved, That the emblem and device of the Negro Protective state party for use on the ballot and otherwise shall be a picture of Abraham Lincoln.

Resolved, That the action of this convention shall be certified to the secretary of the state of Ohio, together with a copy of the ticket nominated.

LIBERTY PARTY PLATFORM.

(Adopted at Columbus, O., May 26, 1897.)

The Liberty Party acknowledges the authority of God in public as well as private affairs. It holds that as governments derive their just powers from the consent of the governed, the people should have the right to vote directly on any legislation when they so desire. In order therefore that the principles of liberty may be preserved and the government be made a government of the people, for the people and by the people we declare for the adoption of the initiative and referendum by which the powers of the people can be exercised in government.

We pledge ourselves as a party when placed in power to faithfully enforce all laws. We further pledge ourselves to present to the people for adoption, legislation covering the following reforms:

First—The suppression of the entire business of manufacturing, importing, exporting or selling intoxicants for beverage purposes and the sale of such intoxicants for other purposes by the government only without profit.

Second—Equal suffrage without regard to sex.

Third—The reform of our present financial system by the free coinage of silver and gold at the present ratio of 16 to 1 as the first step and the ultimate adoption of the full legal tender paper money issued through government banks on equal terms to all, the supply being regulated by the demand and the ability to furnish adequate security.

Fourth—The abolition of monopoly in land and acquisition of land by non-resident aliens.

Fifth—Government ownership of railroads, telegraphs and other natural monopolies.

Sixth—Raising national revenues by equitable taxation on property and incomes.

Seventh—Providing liberal pensions for ex-soldiers and sailors of the United States army and navy, their wives and minor children, graded upon disability and term of service as a just compensation for service rendered the country.

Eighth—The protection of all persons in the right to one day of rest in seven without oppressing those who conscientiously observe any other than the first day of the week.

Ninth—The maintenance of our public schools, taught in the English language, with no appropriation of public funds for sectarian institutions.

Tenth—The election of president, vice-president and United States senators by direct vote of the people.

Eleventh—The revision of our immigration laws so as to exclude paupers and criminals.

Twelfth—The reduction of excessive salaries to public officials and the covering into the public treasury of all official fees.

*From 1803 to 1850, the Secretary of State was elected by the General Assembly.

†The Democratic party of to-day claims lineal descent from the first Republican party with President Jefferson as its founder. Authorities differ as to the date when the party dropped the name Republican and assumed that of Democrat, it being ascribed to various dates between 1805 and 1820.

‡Political parties were disorganized at the time of the election of John Q. Adams. He claimed to be a Republican as Jefferson, but his doctrines were decidedly federalistic. The opposition to his administration took the name of Democrat and elected Jackson President in 1823.
